New Hospital To Celebrate First Year

Tuesday, September 20, 1966, will be the first anniversary of the opening of the new Everglades Memorial Hospital building at 200 S. Barfield Highway to patients. In observance of this memorable community event, Pink Ladies of the Woman's Auxiliary of EMH will serve cake and punch to members of the hospital personnel and persons who come to the hospital to visit patients during the day. Mrs. Alice W. Ramey and her committee will be in charge.

When Everglades Memorial moved last September from its old building on East Main Street to its present new modern structure the bed capacity of local hospital facilities jumped from 46 to 60. The number of fulltime employees has increased from 68 to 80, and the annual payroll is now approximately \$360,000 a year.

Expanded facilities enabled the hospital to take care of approximately 2,400 patients, make more than 3,000 X-ray examinations and 1,800 laboratory tests, and approximately 2,500 meals were served during the past year.

Completely air-conditioned, Everglades Memorial has separate systems for delivery and surgery suites, and is fully equipped with the most modern medical examination and healing facilities, including cardioscope, a portable 200-milliamper X-ray machine, the most powerful of microscopes, oxygen piped to every patient's room for immediate use when necessary, and the like.

The Woman's Auxiliary of Everglades Memorial Hospital, organized less than two years ago, has rendered valuable services to the hospital and its personnel during the first year of operation in the new building.

The Auxiliary, which has approximately 85 members, with Mrs. Grace Maxson president, furnished drapes for the windows of patients' rooms, cafeteria and offices, established a sundries and gift shop in the hospital lobby for the convenience of everyone, and staffs the reception desk in the lobby, which serves as an information desk and contact center for visitors in seeing that the rules for visiting patients are observed.

The Pink Ladies of the Auxiliary also render a messenger service to all departments, assist the X-ray department by transporting patients to and from the X-ray room, work with the dietary department in the preparation of menus, assist in the medical department in the filing of microfilm records, and do many other volunteer services that are a real help to the hospital personnel and greatly appreciated.

The hospital grounds cover 10 acres, five of which have been beautifully landscaped. The landscaping of the grounds was the major community service project of the Pahokee Garden Club during the past year, with Mrs. Jess M. Elliott serving as hospital landscaping chairman for the club. Sod for the lush lawn was furnished by Resmondo Sod Company and there were several other individual contributions to the landscaping program. In keeping with the spacious grounds, provisions were made

in the design of the building itself for expansion, as a third floor may be added easily, if and when extra floor space is needed.

The hospital's department heads include J. C. Simonds, Jr., administrator; Fred Nalle, business office manager; Mrs. Hilda Jensen, director of nurses; Mrs. Florence Brill, dietary; Mrs. Vivian Stamp, central supply; Mrs. Noble Wynn, housekeeping; George Dickson, laboratory; and W. D. Reid, Jr., maintenance.

The governing body for the hospital is the Northwestern Palm Beach County Public Hospital Board, whose members are appointed by the governor of the State. At present C. R. Wetherington, Jr., is serving as chairman of the board; Julius Moon, vice chairman; and J. W. Repper, secretary. Also board members are Alys M. Okie and Earl Hingson. There have been many favorable comments on the work of the board in its efforts to improve health care facilities in the community in particular and Palm Beach County in general.

September 20 will be a date long remembered by residents of the Pahokee-Canal Point area as the day in 1965 when the new, modern Everglades Memorial Hospital was opened to patients, offering facilities as complete as any hospital of its size, to which anyone in the area can justly point with pride.

Festival Is Planned For P. B. County

Plans are now underway for the realization of a winter festival in Palm Beach County that may in time rival the Gasparilla of Tampa and the Mardi Gras of New Orleans.

At the request of Judge McIntosh, the Executive Committee of the South Florida Fair and Exposition appointed a Fiesta Committee to assist in effectuating the plans he outlined to the Fair Committee.

The plans for the fiesta include the election of a king and queen to reign over the festival; A fleet of boats to rendezvous in Palm Beach and escort the ship of the king and queen to its dockage, from which the king and queen will then be escorted to the site of the coronation. The coronation ceremony will be a beautiful and colorful pageant with an historical basis but sufficient imagination to lend color, excitement and adventure to the ceremony. The king and queen of the festival will be feted at a reception which is expected to be attended by many social and civic leaders of the state as well as the community. The following week-end the king and queen will be featured in the South Florida Fair and Fiesta parade, which is expected to be larger and more beautiful than last year. The coronation ball, featuring a nationally prominent orchestra, will be held the night following the parade. The calendar of festivities will culminate with the South Florida Fair and Exposition, which opens January 27, 1967.

The coronation ceremony, the boat procession, the parade and South Florida Fair will be open for public participation and enjoyment. The king and queen reception and coronation ball may of necessity be limited to the members and guests of the sponsoring organization, a corporation whose membership will be made up of Palm Beach County citizens who will be responsible for the financial support of the Fiesta.

Members of the Fiesta Executive Committee serving with Judge Russell McIntosh are Senator Jerry Thomas, Frank Wright, Chief Homer Large, John J. McDonald, Judge James R. Knott, Vincent O'Hara, Jr., John Turrentine, Grover Cleveland Herring, James Simpson and Fred Eastley.

Mr. and Mrs. Kenneth McIntosh and daughter, Lesley, spent a few days this week as the guests of his brother-in-law and sister, Mr. and Mrs. Sidney A. Stubbs and daughters, Natalie and Melanie, in Clearwater.

Registered Nurses In Great Demand

The registered nurse today is probably more in demand than at any previous time in history. Many hospitals are taking advertisements in newspapers far removed from their own area in order to attract nurses to their staff. In fact, the nursing school graduate or the established registered nurse of today has a multiplicity of potential employers to choose from that is probably unmatched in any other profession.

How then can an organization such as the United States Air Force hope to attract a sufficient number of nurses to maintain its Nurse Corps?

Local Air Force Recruiting Sergeant Joe Bloxom states that the task isn't easy but then it never was. "The main problem," according to Sgt. Bloxom, "is letting nurses know exactly what the Air Force can offer them. Many of the so called 'new' benefits that nurses are being offered today by potential employers, the Air Force has offered for years. Many more, of course, are still only found in the Air Force."

Sgt. Bloxom advised local nurses that, with so many positions to choose from, they owe it to themselves to get the facts on all that are available. This most definitely includes the Air Force, of course. Information may be obtained from Sgt. Bloxom at the Air Force Recruiting office, 3238 South Dixie in West Palm Beach, Phone 833-5133. Sgt. Bloxom may also be contacted at the Selective Service office in Belle Glade each Tuesday at 1:00 p.m. and each Thursday at 10:00 a.m.

New Control For Potato Growers

TAMPA, (FNS) Florida potato growers have a new weapon against seed-born diseases which plague their crops, particularly in the far southern counties. The U. S. Department of Agriculture has granted registration of Polymar (R) fungicide for use in treating cut seed and whole seed for control of three major potato diseases - fusarium seed piece decay, seed-born common scab and black leg.

In announcing the new registration, Niagara Chemical Division of FMC Corporation noted that Polymar represents the first seed treatment material to combine protection against seed-born scab with fusarium and black leg control. According to the company the need for a single compound which can efficiently perform both functions has been great, particularly where acid tolerant strain of scab is present.

For cut seed, recommendations call for use of 1 to 1 1/2 lbs. of Polymar dust to treat 100 lbs. of seed pieces. In order to obtain best results dust should be applied to the entire surface area immediately after cutting. On whole seed Polymar, of dust per 100 lbs. of seed. If ram is applied at a rate of 1 to 1 1/2 treated whole seed are cut, a second application is required in order to curb black leg and fusarium seed piece decay.

As a spray material on the foliage of potato plants for control of early and late blight, Polymar is already well established and has provided consistently good results on many different varieties, in all major U. S. potato growing areas. Additionally, specific gravity and color tests - important where potatoes are used for chipping - have been highly favorable on tubers protected by Polymar application.

4.15% when held to maturity

*Higher interest on the
Bonds you already own, too!*

U.S. Savings Bonds are a better way to save than ever

Because now all Series E and Series H Bonds bought after December 1, 1965, will earn the new, higher interest rate of 4.15% when held to maturity. That's only 7 years for Series E—9 months quicker than before. All H Bond interest checks will be larger beginning in June 1966.

And your outstanding Bonds will earn more, too, from now on. So, you don't have to cash in your present Bonds to get the attractive

new rate.

Ask about buying Bonds where you work or bank. For America's future. And yours.

"Today, none of us can remain aloof on the sidelines."

"Today, above all, is a time for all Americans to rededicate themselves to the spirit that animated the Minutemen of Concord—who serve as a symbol of the Savings Bond program. For today, as at the founding of our nation, it is freedom which is again at stake. Not all of us are called upon to fight in the jungles of Vietnam, but while our men are there, in the front lines of a distant land, none of us can remain aloof on the sidelines. We must all do our share—in every way we can—to support our men in Vietnam. One sure way is open to all Americans through the Savings Bond program."

Why should you buy U.S. Savings Bonds when there are so many other good investments?

To help your country is one answer—and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money; either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U.S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds. The banks or savings institutions that sell them don't charge you a penny for the service.

Keep freedom in your future with U.S. SAVINGS BONDS

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
